How to prevent future damage?

LEAF RELIEF[®]
by **Ply Gem**

The Leaf Relief product lines at a glance

For new rain gutters in debris area

Leaf Relief DuoPro is a dual-action gutter protection system. It is built to stand up to the worst weather conditions in America and keep your gutter free of ice and debris year after year.

For new rain gutters

The Leaf Relief Continuous Hanger is a continuous fastening system for gutters. It mounts rain gutters solidly on houses, making them much sturdier and more long-lasting than those mounted with spikes and hangers spaced at intervals. The Leaf Relief Continuous Hanger system protects gutters from damage caused by debris, snow, ice and UV rays.

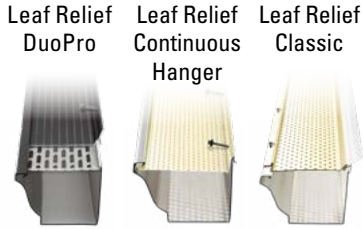

For existing rain gutters

The Leaf Relief Classic keeps leaves and debris from getting into and clogging the gutters. It is installed over existing rain gutters, without replacing them. Its sturdy aluminum construction and the debris protection it provides make it the most widely installed product in the USA.

Fact Sheet Leaf Relief DuoPro

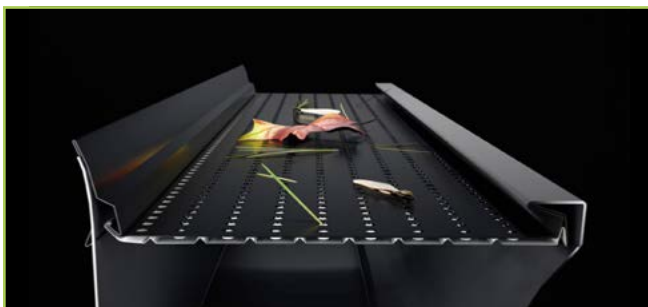

Vortex Technology

The suction created by the two membranes makes it possible to drain three times more water than ever recorded in the heaviest storms. The inner membrane draws water through the wider holes.

Eclipse Technology

The double membrane keeps debris from getting inside the gutter. The offset holes make it the perfect filter, allowing water to drain freely while blocking pine needles and leaves without ever getting clogged.

WATCH VIDEO

Take a picture of this image

Rollback Technology

This technology sends excess rainwater back into the gutter for truly high-volume drainage capabilities.

Wintershield Technology

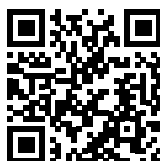

Wintershield stops ice from building up and in the gutter, protecting it from warping caused by freeze/thaw cycles. That way, water flows through the gutter rather than into your home.

Fact Sheet Leaf Relief Continuous Hanger

Winter Shield technology

- Prevents damage caused by ice and snow
- Will not rust or warp
- 100% recycled and recyclable aluminum 

Aluma Perf Technology

- The perfect balance between maximum drainage and debris protection
- Drain 29.7" of water per hour
- Perforations measure 7/64"

Self-Sealing Screw

- Reduces the risk of water seeping through the fascia board
- Galvanized hex screw with rubber gasket

Roll-Back Technology

- Keeps water from overflowing even when heavy rain flows down the roof

Continuous Rear Flap

- Fastens and seals the back of the rain gutter

Overlap

- Makes a perfect seal between sections

Competition Table

Although this table was built to illustrate the differences between the gutter guards most used by professionals, manufacturers agree on one point: perfection does not yet exist in this field. Often, the consumer has to sort through hundreds of options and choose according to his needs.

Competition Table Definition

Affordability

The price is estimated based on publicly available product data. This is the most uncertain score in our evaluation. The more points, the more affordable the product.

Drainage

Since the gutter guards create a restriction at this level to block debris, it is still necessary to ensure that water can go through. The more points, the better the drainage is compared to a gutter without protection.

Leaves protection

The most common source of gutter clogging is leaves. Most gutter guards handle this type of debris quite well these days. The more points there are, the more the gutter remains free of leaves or composted leaves.

Needles protection

If a gutter guard does a good job on this aspect, it is likely that the gutter will be protected from the majority of debris: from bird's nests to shingle grits. The more points, the better the seal against fine debris like pine, fir and spruce needles.

Durability

Gutter guards have a hard life: they are exposed to the sun, undergo temperature changes, withstand snow and ice and must retain their benefits for many years. After all, who wants to have to replace their gutter filter every year. The more points, the more the product will withstand the elements for decades without deforming.

Easy to maintain

To date, many products will reduce the number of times you climb up your ladder to clean, but none will tell you how much time you spend per session. The score here measures both the frequency of cleaning and the simplicity of the chore. The more points, the more self-cleaning the product is and the easier it is to clean when the time comes.

Anti-clogging warranty

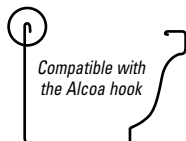

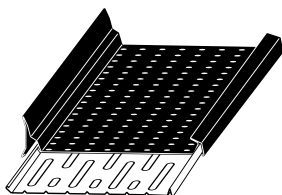

This rating raises the bar and awards points only when a gutter guard is sold with a performance guarantee. These guarantees are always limited and more or less restrictive in their application. However, they indicate the confidence the manufacturer has in its product. The more points, the longer the anti-clogging warranty.

Leaf Relief DuoPro

D11500 DuoPro 5" Dual Layer Microfiltration Continuous Hanger

Nominal .019 Thick
Length: 7' 6"
24 Pcs./Ctn.
180'/Ctn.
200 screws included
47 Lbs./Ctn.
24 Ctns./Skid
Color Availability: 33 Black

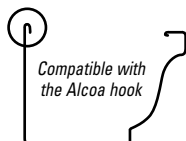

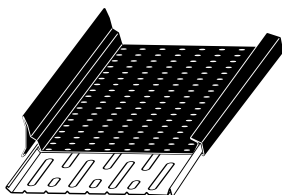

Note: Use Leaf Relief DuoPro 5" Dual Layer Universal Corner or Access Panel Kit UA11500 Universal Inside/Outside/Access Panel functions as either one corner or two Access Panels.

D11600 DuoPro 6" Dual Layer Microfiltration Continuous Hanger

Nominal .019 Thick
Length: 7' 6"
24 Pcs./Ctn.
180'/Ctn.
200 screws included
54 Lbs./Ctn.
24 Ctns./Skid
Color Availability: 33 Black

Note: Use Leaf Relief DuoPro 6" Dual Layer Universal Corner or Access Panel Kit UA11600 Universal Inside/Outside/Access Panel functions as either one corner or two Access Panels.

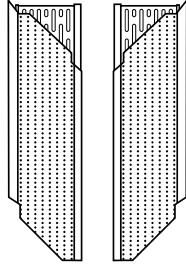

UA11500

DuoPro 5" Dual Layer Microfiltration Universal Inside/Outside Corner or Access Panel Kit

Nominal .019 Thick
10 Corners or 20 Access Panels/Ctn
No screws included
5Lbs./Ctn.
60 Ctns./Skid
Color Availability: 33 Black

Note: Use with D11500 DuoPro 5" Dual Layer Microfiltration Continuous Hanger. Universal Inside/Outside/Access Panel functions as either one corner or two Access Panels.

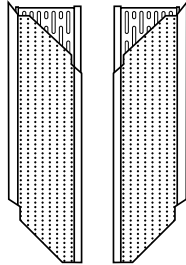

UA11600

DuoPro 6" Dual Layer Microfiltration Universal Inside/Outside Corner or Access Panel Kit

Nominal .019 Thick
10 Pcs./Ctn.
No screws included
5 Lbs./Ctn.
60 Ctns./Skid
Color Availability: 33 Black

Note: Use with D11600 DuoPro 6" Dual Layer Microfiltration Continuous Hanger. Universal Inside/Outside/Access Panel functions as either one corner or two Access Panels.

SC9X150 02

#9 x 1-1/2" Hex-Head Coated Screw with Gasket

1000/Ctn.
100/Pkg.
10 Pkg./Ctn.
11.5 Lbs./Ctn.
Color Availability: Black
